Career Objective

Front-end developer with over one year of experience in responsive website design and a firm believer in the mobile-first approach. After successfully building WordPress and Drupal websites, I am eager to continue my Career, expanding my framework skills.

Work Experience

Versantus

Front-End Developer

📅 August 2021 - current

📍 Frieze Farmhouse, Oxford

- Maintained and developed commercial websites using WordPress and Drupal CMS, Twig, SCSS, Bootstrap, and JQuery.
- Used Drupal Mosaic WebKit to develop Oxford University websites, including the Department of Social Policy and Intervention
- Contributed to a React Native app project by developing features and fixes for the app.
- Worked in an agile environment with weekly stand-ups, sharing knowledge with teammates and working closely with the project manager to ensure that every product met the versatile, modern, and performant requirements.
- Followed best practices and guidelines, including being a part of developing a Drupal starter Kit for future development practices.
- Debug technical issues for Customer service, including style, configuration, security updates and deployment.

Projects

TaxiToursFernandes

Full-Stack Developer

- Built a full-stack Uber influenced web app for a taxi company.
- The app is built with Vue.js using Quasar to deploy it on the Web as a SPA, PWA, and SSR to a Mobile App in a single-code base.
- It uses GoogleMaps Api and typescript to allow users to select their destinations and store their data on Google FireBase. The app also has a GPS for users to track the vehicle's movement.
